### Xtreme Lumens™ Metal Multi-Function Full-Size Dual-Light™ Flashlight Rechargeable (no AC power supply)

#### MARKET APPLICATIONS

Law enforcement, fire & rescue, industrial, security, hardware/tool, automotive, hunting/recreation.

#### DESCRIPTION

This full-size rechargeable metal multi-function Xtreme Lumens™ Dual-Light™ flashlight uses a CREE® LED rated at 650 lumens that works in conjunction with a high-efficiency deep parabolic reflector to create a usable beam rated at 275 meters. A 600 lumens unfocused floodlight is integrated in to the housing which is perfect for close-up illumination. Additionally both the flashlight (any brightness mode) and the floodlight can be turned on at the same time for maximum safety and versatility. The flashlight body switch provides momentary or constant-on functionality, a set of user-selectable high, medium or low-brightness settings as well as a disorienting strobe. The second body switch operates the floodlight. The housing and tail-cap are made from air-craft-grade 6061-T6 aluminum and bezel is constructed from 316 stainless steel bezel. The housing, tail-cap and the bezel have a Type III hard anodized finish. Power comes from a rechargeable Lithium-ion battery. Meets requirements of NFPA-1971-8.6 (2013).
