Innovation Made Better™

**Detachable
Magnetic
Hook**

**120 Lumen
Floodlight**

This corded all LED Work Light is lightweight thanks to its all LED design and provides excellent area illumination handling just about anything you can throw at it. The floodlight, rated at 120 Lumens, is designed for lighting up a large area. The work light has two magnets built in, one at the balance point in the middle of the handle, and the other at the tip of the light. Perfect for attaching the light wherever it's needed. The octagonal shape to the handle keeps the floodlight aimed in the correct direction when you lay the light on its side. Further adding to the work light's hands-free features is the detachable magnetic hook. It can be attached to either integrated body magnet and rotated 360 degrees. The light has a 6 foot 18/2 SJT cord.

**6 Feet
18/2 SJT Cord**

CORDED LED WORK LIGHT
