These compact rechargeable multi-function polymer tactical flashlights use a CREE® LED rated at 200 lumens that works in conjunction with a high-efficiency deep parabolic reflector to create a usable beam rated at 210 meters. The tail-cap switch provides momentary or constant-on functionality, a set of user-selectable high, medium or low-brightness settings as well as a disorienting strobe. Power comes from a rechargeable Lithium-ion battery and includes a CR-123 Battery Carrier for backup battery power (CR-123 batteries not included).
